

Partnering with us: **IT STRATEGY CONSULTING COMPANIES**

Why Movement Health is looking to collaborate with IT strategy consulting companies in multiple countries.

At Movement Health, we recognise that partnerships and collaboration are crucial if we want to transform global healthcare systems. Moreover, these partnerships need to extend to all sectors of the economy, including:

- IT strategy consulting.
- Global banking and financial services.
- Genetic variation and biological function.
- Transport and logistics.
- Health insurance.

All of these sectors and industries have moved with the times, introducing changes that have allowed them to stay competitive and relevant. By contrast, the healthcare sector has lagged behind and is struggling to cope with demand, which is only going to increase in the future. That's why it's so important for healthcare to tap into other industries and learn from their innovation, knowledge and efficiency.

Here's why IT strategy consulting companies are so central to our thinking.

How you could help us

The current challenges in healthcare necessitate resources to enhance digital health capabilities. Movement Health is committed to improving treatment and prevention through alliances between public and private digital health organisations. Managing increased demand for care, optimising supply chain and logistics, and establishing effective virtual care delivery models are crucial for meaningful patient connectivity during critical periods.

In partnership with Movement Health, IT strategy consulting companies can play a vital role in assisting hospitals, health systems and healthcare providers worldwide in developing data and digital strategies to enhance their capacity. They can act as key drivers in establishing trusted frameworks and measurement tools to guide and evaluate the ongoing transformation of health systems. A collaboration with Movement Health would help address the pressing need for such resources and promote progress in healthcare transformation.

We want to hear from you

We are looking to partner with dynamic and innovative IT strategy consulting companies with globally applicable digital frameworks and models, as well as the tools to build, measure and advance health-system transformation.

If this sounds like you, then please get in touch with Our Executive Director of the Movement Health Foundation, Héctor Pourtalé, can tell you more about the process of becoming a partner of Movement Health.

You can email him at

How you will benefit

Movement Health offers IT strategy consulting companies the chance to contribute to shaping the future of health systems and collaborate with renowned experts across 17 countries. The opportunity lies in developing data tools and digital health transformation strategies. Movement Health is actively engaged with providers in 17 countries. It works closely with over 180 experts from prestigious institutions and organisations, including national Ministries of Health and Harvard.

The potential for IT strategy consulting companies in digital health lies in connecting and empowering individuals and populations to manage their health, supported by flexible, integrated and digitally-enabled care environments that leverage digital tools and services to transform care delivery.
